

HP2030 Framework: Initial Product Concepts

Katrina Lanahan, MPH
Sarah Pomerantz, MPH
CommunicateHealth, Inc.

Today, we will:

- Provide an overview of the HP2030 framework product development process
- Summarize audiences, purpose, and value to users
- Reflect progress to date in defining key components for a suite of products
- Discuss key questions and feedback

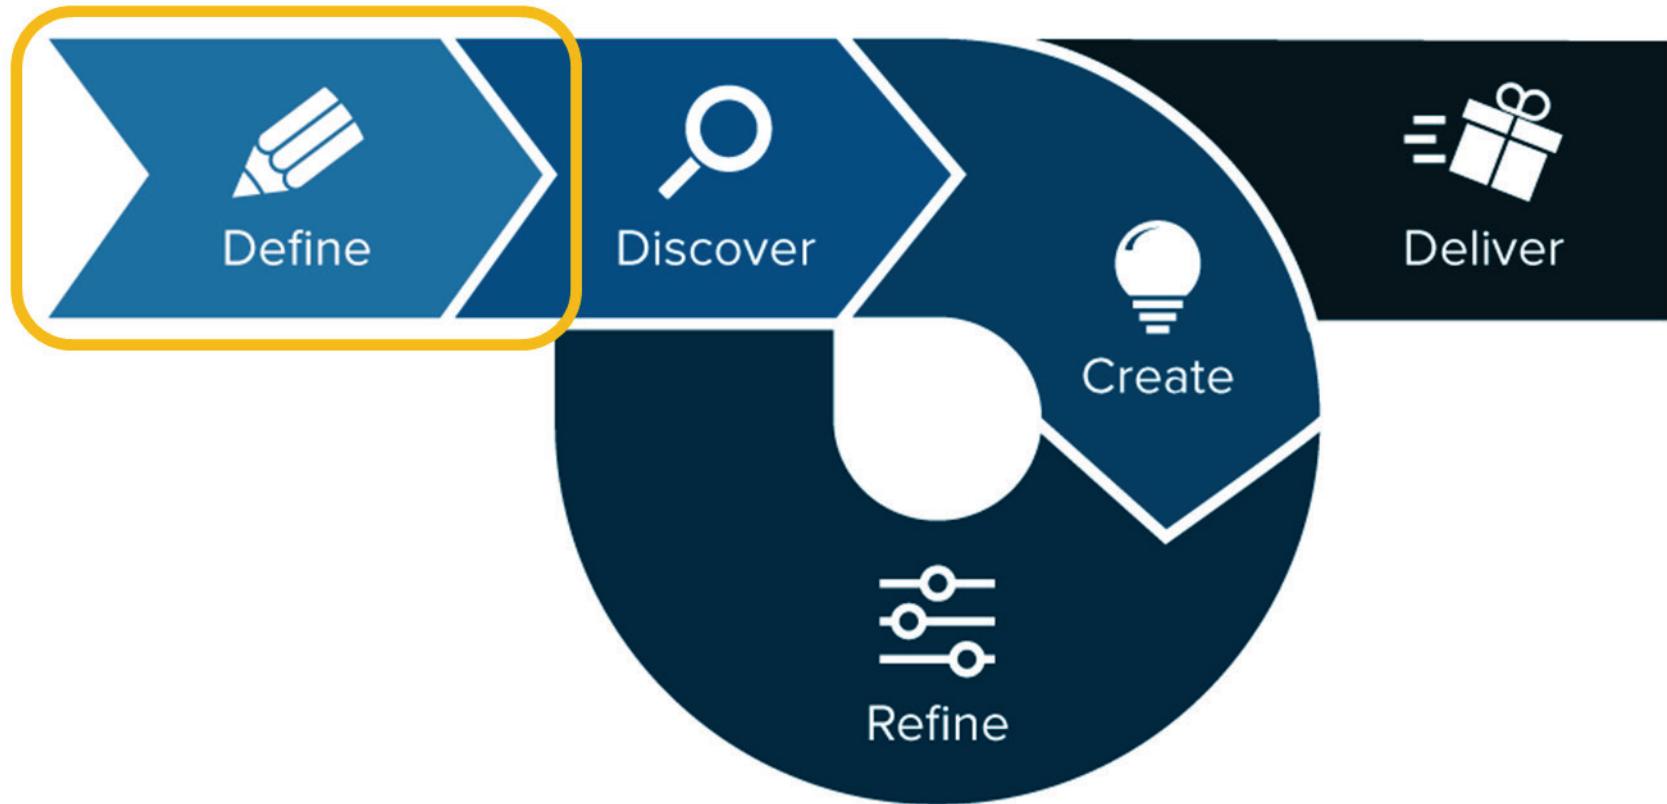

Where we are in the process

Office of Disease Prevention
and Health Promotion

Product development process

DEVELOPING
HealthyPeople
2030

ODPHP

Office of Disease Prevention
and Health Promotion

- ① Define **product requirements** — including audiences, purpose, use, formats, and key messages
- ② Identify **main components** for each product
- ③ Determine **relationships** between components
- ④ Create **visual design** to illustrate those relationships
- ⑤ **Test** with users and iterate on design
- ⑥ **Launch** in 2020 as part of HP2030 initiative

Audiences, purpose, and value to users

Office of Disease Prevention
and Health Promotion

Engage professionals **across sectors**, such as:

- Public health
- Hospitals, healthcare delivery, and insurance
- Housing and transportation
- Education
- Justice and law enforcement
- Food and agriculture

Target users who are or are not already **familiar** with Healthy People

- **Easy to understand** — whether or not you're familiar with Healthy People
- Increase **engagement** with the HP2030 vision, mission, goals, foundational principles, plan of action, and objectives
- **Goal-driven**, lead us toward a healthy nation
- Help everyone go in the **same direction**
- **Action-oriented**, indicate opportunities to participate
- Encourage **shared responsibility** across sectors

Office of Disease Prevention
and Health Promotion

Users should be able to:

- Understand **what** HP2030 is trying to achieve and the goals that support that vision
- Understand **why** it's important to take action to achieve HP2030 goals and objectives
- Understand **how** they can take action

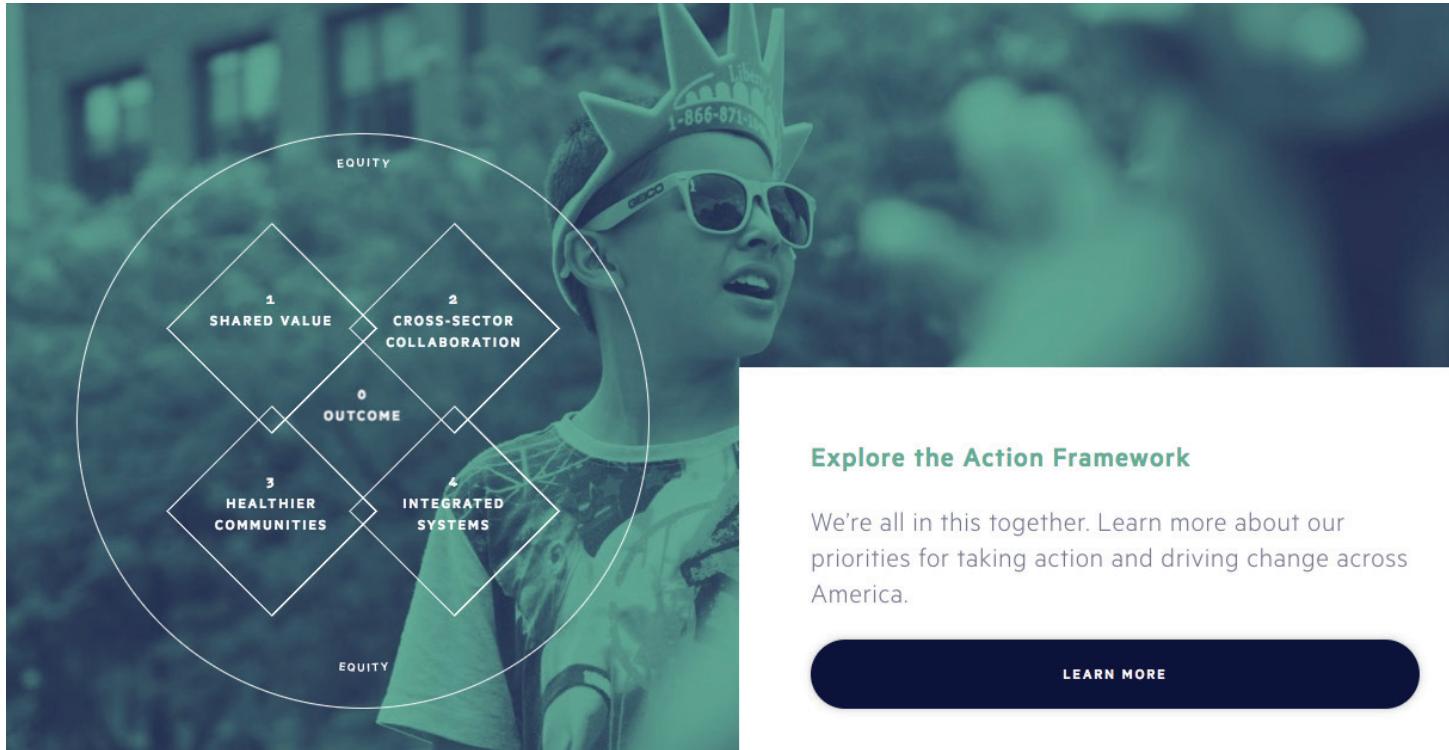

Office of Disease Prevention
and Health Promotion

Proposed products

- ① **Static overview graphic** to capture main components
- ② **Detailed, interactive graphic** to expand on overview graphic and elaborate on what each component means for users
- ③ **Video** to illustrate HP2030 in action with a real-world example

Example: Interactive graphic

Overview graphic (above) links to interactive graphic:
Robert Wood Johnson Foundation, [Culture of Health](#)

The **Bite, Snack, Meal** content strategy increases reader engagement and message retention

- **Bite** [Overview graphic]: the main message, without details
- **Snack** [Video]: concise summary, includes a few details
- **Meal** [Interactive graphic]: thorough explanation, resources

Overview graphic

Purpose: Overview graphic

DEVELOPING
HealthyPeople
2030

- Give a high-level, visual overview — the “**bite**”
- Focus on the **what** of the HP2030 framework
- Capture key words from framework, but not full elements (rule of 7)
- Introduce the detailed, interactive graphic

Office of Disease Prevention
and Health Promotion

What is the framing for the graphic?

- **Value focus:** Why we are here [*mission*] and what guides our actions [*foundational principles*]
- **Outcome focus:** What HP2030 is hoping to achieve [*overarching goals*] and how to move toward those goals [*plan of action*]

Office of Disease Prevention
and Health Promotion

What relationship are we focusing on?

- **What HP can do for you:** What actions HP is organizing and promoting [*plan of action*]
- **How you can help HP:** What actions organizations and communities can take to help achieve HP2030 goals [*plan of action*]

Interactive graphic

Purpose: Interactive graphic

- Expand on the content in the overview graphic — including the **why** and the **how** — the “**meal**”
- Take a deeper dive into each of the components and how they support the main message
- Include full framework elements (vision, mission, goals, foundational principles, plan of action) with supporting details
- Indicate opportunities to take action, such as via other HP2030 resources and partnering across sectors

Video

Office of Disease Prevention
and Health Promotion

Purpose: Video

- Narrate an overview of the framework — the “**snack**”
- Walk through a real-world example of **how** an organization can apply the HP2030 framework
- Show how taking action and building partnerships will help lead us toward a healthier nation
